Green Fork Bistro — Restaurant Policies

Knowledge Base Document 3 | Hours, reservations, service policies and limitations

Restaurant profile

Green Fork Bistro is a fictional restaurant used for an academic RAG chatbot demonstration. This policy sheet contains invented operating details so retrieval and source citation can be tested.

Sample operating information

Topic	Sample policy / detail
Opening hours	Monday–Friday: 11:00 AM–10:00 PM. Saturday–Sunday: 10:00 AM–10:30 PM. Public-holiday hours are not specified.
Dine-in reservations	Reservations are accepted for parties of 2–8 people. A reservation request is not confirmed until staff confirms it.
Walk-ins	Walk-in seating is subject to availability. This document does not provide live table availability.
Late arrival	Please contact the restaurant if you expect to arrive more than 15 minutes after your reservation time. This sample policy does not guarantee the table will be held.
Cancellation	Customers should contact the restaurant as early as possible to cancel or change a reservation. No cancellation fee is specified in this sample document.
Takeaway	Takeaway is listed as available during operating hours, subject to item availability. No live ordering system is connected.
Delivery	Delivery coverage, delivery fees, and estimated delivery times are not specified in this document.
Payment methods	Cash, UPI, and major debit/credit cards are listed as accepted sample payment methods. This is not a live payment integration.
Accessibility	The sample profile does not contain verified accessibility information. Ask staff directly for current details.
Contact details	Demo phone: 080-5550-0100. Demo email: hello@greenfork.example. These are fictional contact details and are not real contact channels.
Location	Demo address: 12 Sample Market Road, Bengaluru, Karnataka. This is a fictional address for testing only.
Service charges / taxes	This document does not specify service charges, GST treatment, or a final bill calculation. The chatbot must not invent these values.

Answering rules

• Do not state that a reservation, order, or payment has been completed. The chatbot has no booking or payment integration.
• For live availability, order status, delivery coverage, holidays, fees, or other missing details, clearly state that the document does not specify the answer.
• When the user asks for a reservation, explain that the chatbot can describe the sample policy but cannot book a table.
• Do not present fictional contact details or address as real.

Useful test questions

- What are the weekend opening hours?
- What is the maximum party size for a reservation?
- Does the restaurant support UPI payments?
- Can you confirm a table for 7 PM tonight?
- What is the delivery fee?

Expected behavior for missing information

For questions about live booking, delivery fees, public-holiday hours, taxes, or real-time availability, answer that the provided documents do not contain enough information. Do not guess.
