Green Fork Bistro — Ingredients & Allergen Reference

Knowledge Base Document 2 | Ingredient notes, allergen flags and safe response rules

Purpose and safety statement

This fictional reference lists selected ingredients and potential allergens for demonstration. It is not a substitute for kitchen verification, supplier labels, or a formal allergen-control process. Recipes and cross-contact conditions can vary.

Rules for answering allergen questions

1. Use only ingredient/allergen statements supported by the retrieved text.
2. If ingredients are missing or unclear, say so explicitly and recommend confirming directly with restaurant staff.
3. Never claim that a dish is safe for a person with an allergy based only on this sample document.
4. Distinguish a listed ingredient from a possible cross-contact risk.
5. If asked about a dish not covered here, say the document does not provide enough information.

Example safe answer

“The sample menu lists wheat flour in Plain Roti, so wheat is an ingredient. This document does not verify kitchen cross-contact or individual allergy safety. Please confirm with the restaurant before ordering.”

Knowledge-base limitation

All data is fictional. The chatbot is a document Q&A; demonstration, not a medical, dietary, or food-safety certification system.
